GYMKHANA

❖ NUTRITION PROGRAMME

People's Education Society's, Dr. Ambedkar College of Commerce and Economics, Wadala, Mumbai – 400031. Gymkhana Department organized **Nutrition Programme** on 11th March, 2022 at 9:40 am to 10:40 am in Room No 02.

The program commenced with Buddha Vandana followed by a Welcome speech by Prof. Rohan S. Gaikwad, he welcomed PES Chairman Dr. Bhalchandra Mungekar, Deputy Chairman, Adv. Ashokji Talwatkar, Mr. Amogh Darekar, (Nutritionist) I/c Principal Dr. Jeyashree G. Iyer, Vice Principal Prof. D. A. Gawai, Prof. P. P. Patil by offering flowers.

Following the welcome speech, Prof. Rohan S. Gaikwad gave an introductory speech and introduced the speaker.

Following introductory speech, Mr. Amogh Darekar gave a speech on Nutrition. As the name suggests, 'nutrition' includes in itself 'nutrients' which can be broadly classified as carbohydrates, proteins, fats, vitamins, minerals, roughage, and water. A balanced amount of these nutrients in the right proportions constitute a healthy diet.

The words 'balanced' and 'right proportions' mentioned previously are key to life when it comes to consuming nutrients. 'Optimum Nutrition' is defined as eating the right amount of nutrients in a proper schedule to achieve the best performance and longest possible lifetime in good health. The importance of nutrition can be visibly highlighted by the increasing number of nutrient deficiency diseases such as night blindness, scurvy, cretinism, anemia, and nutrient excess health-threatening conditions like obesity, metabolic syndrome, and other cardiovascular anomalies.

Undernutrition in underdeveloped and developing countries has been marked by malnutrition due to lack of even the basic staple nutrients causing diseases like marasmus and kwashiorkor. Animal nutrition on the molecular level comes from nitrogen, carbon, and hydrogen compounds. Nutrients are the building blocks of the food chain, which interlink to form food webs and influence world food production via biodiversity.

Similarly, plant nutrition is referred to as the chemicals that are necessary for plant growth and other physiological processes in plants like metabolism, transport, photosynthesis, etc. Nutrients essential for plants are obtained from the soil, air, sunlight, and as a whole from the earth; thus, the nutrients can be recycled and renewed, making it easily available for sustenance of life.

❖ **DENTAL CHECK-UP PROGRAMME**

People’s Education Society’s, Dr. Ambedkar College of Commerce and Economics, Wadala, Mumbai – 400031. Gymkhana Department organized Dental Check-Up Programme on 3rd March, 2022 at 11:00 am to 1:00 pm in Gymkhana.
