7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

Best Practice - I

Title of the Practice- "Employability training program"

Objectives of the Practice (100 words)

1. To develop job skills in the students.
2. To give maximum job opportunities to the students.

The Context (150 words)

The Career Guidance & Placement cell has approached various organizations and Multinational Companies to conduct the online as well as offline campus Recruitment programme in our college campus. In academic year placement cell not only conducted online training but also offline training after September 2021. Training programs included interview skills, business etiquettes, work readiness, Resume building, Communication Skills etc. This is the process by which many students have really benefitted in the past.

During the pandemic and after, many people lost their job due to lockdown. Career Guidance and Placement Cell of Dr. Ambedkar College arranged various online skill development programs and provided job opportunities to the students during the lockdown period.

The Practice (400 words)

The Career Guidance and Placement Cell provides opportunities for the students to get employment prior to the completion of their degree courses. Students offer letter

Training certificates

Problems encountered and resources required (150 words)

The college provided an online lecture platform in which Google Meet was used for placement training. In the initial phase of the pandemic, students were not familiar with online lectures, but over time they became familiar with the online portal. Students who went to other states and villages in Maharashtra were unable to attend the training due to poor network issues. After the pandemic, we started all training in offline mode as per the guidelines of Mumbai University. While shifting to offline mode, initially, students were reluctant to go for offline mode, but teachers and trainers explained the importance of face-to-face training and how it is more effective compared to online mode.

The Practice (400 words)

To elicit the sportsman ship among the college had conducted various indoor and outdoor sports events during academic year 2021-22. We are privileged that our beloved I/c.Principal Dr. Jeyashree G Iyer is the Chairman of Kho- Kho tournament committee of University of Mumbai for the year 2021-2022. The Selection Trial for all sports events during the year 2021 – 2022 started from the month of Aug 2021-2022. The Gymkhana Committee appointed coaches for special coaching of sports like Football, Cricket, Kho-Kho and Kabaddi for boys and girls students separately. We have big spacious ground where University (Cricket, Kho-Kho and Kabaddi Kho-Kho) matches were conducted. Maintenance of ground is our main focus.

INFRASTRUCTURE AND FACILITY

1. Our college has very good Gymnasium, separately for boy and girl students.
2. There is good sport complex, where inter collegiate zonal and inter zonal Tournament for Kho- Kho, Kabaddi, volleyball and other tournament with the collaboration of Mumbai University were played.

Our college has separate gym for male & female with facilities like –

College had taken sincere efforts to promote sports activities in the academic year 2021, details are given below.

1. Gymkhana organized **Nutrition Programme** on 11th March, 2022 at 9:40 am to 10:40 am in Room No 02. Mr. Amogh Darekar was a resource person for the Nutrition session. the following key points were discussed during the program:

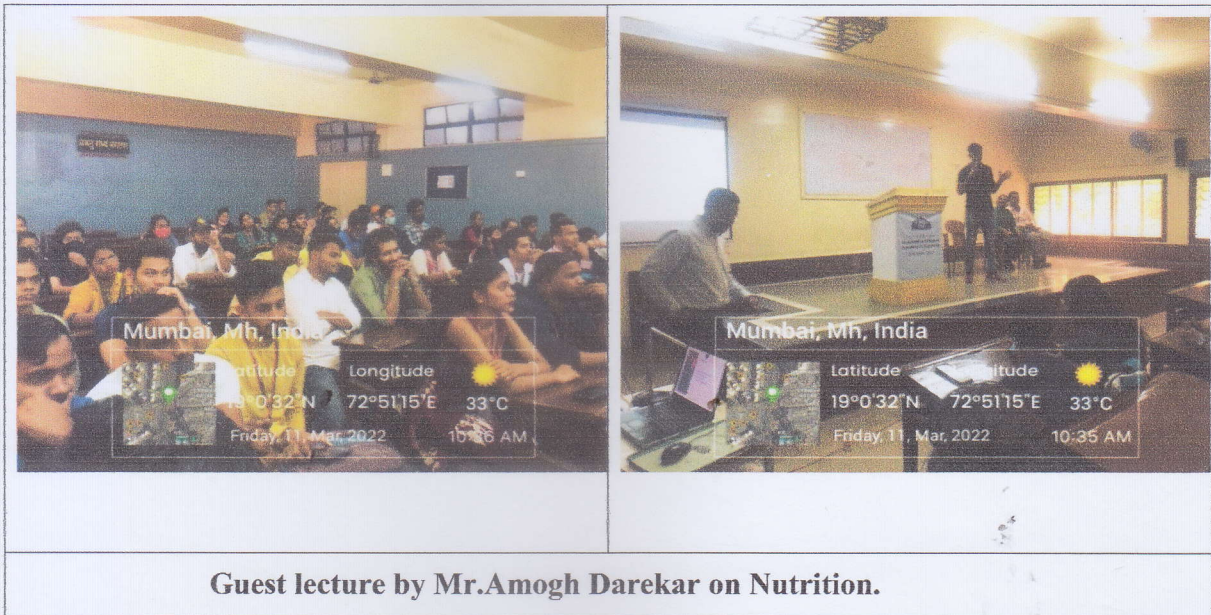

‘Nutrition’ includes in itself ‘nutrients’ which can be broadly classified as carbohydrates, proteins, fats, vitamins, minerals, roughage, and water. A balanced amount of these nutrients in the right proportions constitute a healthy diet. The words ‘balanced’ and ‘right proportions’ mentioned previously are key to life when it comes to consuming nutrients.

‘Optimum Nutrition’ is defined as eating the right amount of nutrients in a proper schedule to achieve the best performance and longest possible lifetime in good health. The importance of nutrition can be visibly highlighted by the increasing number of nutrient deficiency diseases such as night blindness, scurvy, cretinism, anemia, and nutrient excess health-threatening conditions like obesity, metabolic syndrome, and other cardiovascular anomalies.

Undernutrition in underdeveloped and developing countries has been marked by malnutrition due to lack of even the basic staple nutrients causing diseases like marasmus and kwashiorkor. Animal nutrition on the molecular level comes from nitrogen, carbon, and hydrogen compounds. Nutrients are the building blocks of the food chain, which interlink to form food webs and influence world food production via biodiversity. Similarly, plant nutrition is referred to as the chemicals that are necessary for plant growth and other physiological processes in plants like metabolism, transport, photosynthesis, etc. Nutrients essential for plants are obtained from the soil, air, sunlight, and as a whole from the earth; thus, the nutrients can be recycled and renewed, making it easily available for sustenance of life.
